

# THE HEADWALL

Shield's outboard headwall creates all-in-one access for healthcare workers to connect any necessary peripherals to provide patient care. Acrylic solid surface construction means a durable, cleanable product that lasts for life. With multiple model sizes and options to customize, finding the right solution has never been easier.

## SIGNATURE STYLE

- Cleanable, renewable materials
- Lap joint construction to prevent water damage
- Steel frame construction
- NFPA certified connections
- Modular, demountable panels
- Flexible service placement with ceiling termination
- re-installed backboxes and conduit risers
